New Opportunity for Community- (and *Fun-*) Oriented Young Professionals

The Kiwanis Club of Issaquah is launching a satellite club next month to expand its service-oriented mission and social network to a younger crowd. All young professionals are invited to learn more at a casual get-together at **5:30 pm Thursday, February 11, at the Issaquah Brew House**, 35 W. Sunset Way. Appetizers will be provided. While many young professionals are looking for opportunities to serve a greater purpose and form community camaraderie in Issaquah, they may be unable to participate in the main Kiwanis Club's activities (which are generally during the work day) or they may want a more informal environment. The young-professionals satellite, therefore, will hold its meetings in the evenings at social venues or even online.
